

Jiawang Yan  
Keio University, Japan

**Biography:** Jiawang Yan received his Ph.D. from Tohoku University, Japan in 2000 and is currently a professor of mechanical engineering at Keio University. His research areas include ultraprecision machining, micro/nano manufacturing, laser processing, and nanostructures/materials. He is board member of Japan Society of Precision Engineering and Japan Society of Laser Technology. He also serves the editorial boards of International Journal of Machine Tools and Manufacturer (IJMTM), Journal of Material Processing Technology (JMPT), and International Journal of Extreme Manufacturing (IJEM). He is Fellow of International Academy for Production Engineering (CIRP), Engineering Academy of Japan (EAJ), and International Society of Nanomanufacturing (ISNM).
